# User manual

BH701 Bluetooth Headset

1. Overview

The headset contains the following parts as shown in the figure:

Answer/end key (1)

Indicator light (2)

Volume key (3)

Microphone (4)

Earphone (5)

Charger connector (6)

Before you start using the headset, you must charge the battery and pair the headset with a compatible phone.

2. Charging the headset

This device has an internal, rechargeable battery which must be fully charged before used for the first time. It takes you about 2 hours to charge the battery full for the first time. During charging, the indicator shows a steady red. When the battery is fully charged, the red light will turn off. For the later on charging, it takes about 90 minutes.

You can charge the headset either by using the AC travel charger, USB charging cable or the car charger depending on the package accessories available. Please check your package for details. BH701 is intended for use with the chargers that is included in the package.

The fully charged battery has power for up to 4 hours of talking time or up to 100 hours of standby time.

When the battery is running out of power, the red indicator light starts to flash once every 15 seconds with buzzer reminder voice. This indicates that the headset needs to be charged as soon as possible.

3. Switch on or off the headset

To switch on, when BH701 is in off state, press and hold the answer/end key for 4 seconds until the blue indicator light starts to flash for 3 times

To switch off, when BH701 is in on state, press and hold the answer/end key for 4 seconds until the red indicator light flashes for 3 times.

4. Pair the headset with a compatible phone

Pairing is the process of establishing encrypted link between BH709 and Bluetooth devices.

Step-1 The headset must be powered off before you begin to initiate the paring.

Step-2 press and hold the answer/end key for 7 second until the blue and red light flash alternatively. The headset is now in paring mode.

Step-3 Activate the Bluetooth feature on the phone, and set the phone to search for Bluetooth devices. Check the user guide of your phone for instructions.

Step-4 Select the headset (BH701) from the list of found devices.

Step-5 When asked the PIN code, please enter "0000" to pair and connect the headset to your phone. In some phones you may need to make the connection separately after pairing. See the user guide of your phone for details.

If the pairing is successful, the headset enters idle state and blue light will flash flashes 1 time every 5 seconds. The headset's name appears in the phone menu where you can view the currently paired Bluetooth devices.

You only need to pair the headset with your phone once.

Note for Multi-link use: In order to pair a second mobile, please press the volume - button for 6 seconds until the red and blue light flashes alternatively, headset is ready into pairing mode and you can pair the second mobile. Turn off the headset and re-turn on it, both mobile was ready under links or connect with first cellphone manually.

In order to activate the multi-link function, press Volume+ and volume – button at the same time for 3s until the blue led light stay on for 2S.

Troubleshooting

If you cannot connect the headset to your phone, do as follows:

• Ensure that the headset is charged, switched on, paired with and connected to your phone.

• Ensure that the Bluetooth feature is activated on your phone.

• Check that the headset is within 10 meter(30 feet) of your phone and that there are no obstructions between the headset and the phone, such as walls or other electronic devices.

If no paring is made over a period of time, the headset will retreat paring mode. You have to turn off the headset and operate again.

5.   Basic use

5.1   Make a call
To make a call, use your phone in the normal way when the headset is connected to your phone. The sound will be transmitted to the headset automatically.

5.2   Answer a call
When there is incoming call, press the answer/end key, or use the phone keys to answer the call.

7. Specification

* Bluetooth Specification v2.1
* Supports Bluetooth Headset and Hands-free Profile
* RF Frequency Range: 2.402-2.480GHZ, 2.4G ISM band
* Radio Performance: Receive Sensitivity of -90dBm, TX Power Max 4dBm
* Frequency Response: 20 Hz - 20 KHz, Very high Signal to Noise Ratio (SNR):95 Db, Total Harmonic Distortion (THD):0.1%,
* Rechargeable 65mAh Li-Polymer Battery
* Charger adapter Output: DC 5V&200mA
* Nominal charging time: Max 1.5- 2 hours
* Talk time: Up to 4 hours
* Standby time: Up to 100 hours

FCC Statement

1.The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

2.This device complies with Part 15 of the FCC Rules.
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.
